

# Precision Cut Fibers Since 1967

MiniFIBERS was founded in 1967 by G.B. Keith, who developed an innovative way to produce precision cut synthetic fibers in accurate, short lengths with exceptional consistency and quality.

More than 50 years later, this tradition of innovation and excellence continues at MiniFIBERS as we develop new methods and processes designed to maintain our position as a leader in the industry.

MiniFIBERS stocks a wide range of synthetic fibers including Acrylic, Nylon, Polyester, Low Melt Polyethylene, Polypropylene, Lyocell and Viscose Rayon, as well as natural fibers such as Banana, Fique, Flax, Hemp, Jute and Kenaf.

Other fibers such as Aramids, Vectran®, and UHMW/HDPE are available by special order. We also have the ability to crimp and cut specialty staple fibers on a custom basis to meet your specific needs.

Precision cut fiber lengths range from 2mm to 51mm, with shorter lengths available for some fibers. MiniFIBERS can apply specialty finishes to fibers, and we offer a variety of packaging options. Tolling options are also available using customer-supplied finishes, raw materials or packaging.

All of our products are processed and packaged to our customers' specifications with quality and service in mind.

## Precision Cut Fibers

### Standard Product List

FIBER TYPE	DIAMETER	AVAILABLE LENGTHS
<b>ACRYLIC</b> Crimped Uncrimped	15.0 dpf 15.0 dpf	3mm to 51mm 3mm to 51mm
<b>ARAMIDS</b> , available by special order Para-Aramid Nomex® Meta-Aramid	1.5 dpf 2.7 dpf	3mm to 51mm 7mm only
<b>LYOCELL</b>	1.5 dpf	0.5mm to 51mm
<b>NATURAL FIBERS</b> Banana, Fique, Flax, Hemp, Jute and Kenaf	-----	3mm to 29mm
<b>NYLON 6,6</b> Semi-Dull, Regular Semi-Dull, Low Shrink Bright, High Tenacity	1.0 dpf 3.0 dpf 3.0 dpf 6.0 dpf	2mm to 51mm 2mm to 51mm 2mm to 51mm 2mm to 51mm
<b>POLYESTER</b> High Tenacity, Low Shrink  High Tenacity, Regular Shrink Undrawn POY	3.0 dpf 6.0 dpf 10.0 dpf  6.0 dpf 25.0 dpf	2mm to 51mm 2mm to 51mm 2mm to 51mm  2mm to 51mm 2mm to 51mm
<b>POLYETHYLENE</b> Low Melt LLDPE UHMW / HMPE, available by special order	6.0 dpf 2.0 dpf	2mm to 51mm 2mm to 51mm
<b>POLYPROPYLENE</b> Standard  For Refractory Applications For Cementitious Wet Mix For Cementitious Dry Mix For Soil Stabilization, available by special order	1.5 dpf 7.0 dpf 17.0 dpf  3.0 dpf 18 µm 50 µm 18 µm flat	2mm to 51mm 2mm to 51mm 2mm to 51mm  5mm, 6mm 3mm to 18mm 3mm to 18mm 18mm, 48mm
<b>VISCOSE RAYON</b> Regular Tenacity  High Tenacity Industrial Trilobal, available by special order	0.8 4.5  1.5 3.0	0.5mm to 51mm 0.5mm to 51mm  2mm to 51mm 0.5mm to 51mm

*Other fibers, diameters, and lengths may be available upon request.*

**Visit [www.minifibers.com](http://www.minifibers.com) for details on the following items also available:**

**PBT, LOW MELT LLDPE, & ELASTOMERIC MULTIFILAMENT YARNS**

**FYBREL® SYNTHETIC WOOD PULP**

**SHORT STUFF® FIBRILLATED HDPE**

**ADMIXUS® HDPE ADDITIVES**
