

## Technical Data Sheet

### OXIDIZED PAN (OPAN) FLOCK

**Product Code Prefix: OPSTD-015KLR**

**General Description:** Oxidized PAN is a high-performance fiber created by oxidizing polyacrylonitrile precursor fibers at high temperatures in a controlled air environment, transforming it into a fiber which exhibits excellent heat resistance, strength and stability.

**Standard Filament Size:** 1.5 denier per filament (dpf)

Other diameters may be available upon request.

**Standard Cut Lengths:** 1mm, 1.5mm, 2mm, 2.5mm, 3mm, 3.5mm, 4mm

Other lengths may be available upon request.

**Shrinkage:** Does not shrink.

**Breaking Tenacity:** ~2.1 – 2.6 gpd

**Elongation:** ~22 – 28%

**Modulus:** ~65 – 78 g/den

**Moisture Content:** <13.0% residual moisture as packaged

**Average Moisture Regain:** ~9.0 – 12.0%

**Specific Gravity:** 1.37 – 1.40 g/cm<sup>3</sup>

**Effect of Heat:** Does not melt, soften, or drip. Inherently fire resistant and thermally stable. No halogens, and very low toxic gas emissions upon exposure to flame.

**Chemical Resistance:** Excellent resistance to chemicals and solvents.

**Performance Characteristics:** Soft and flexible. Low thermal conductivity. Electrically non-conductive. High dimensional stability.

**Dispersion:** Easily dispersed in aqueous and non-aqueous systems. Surface treatment to aid dispersion applied as required.

**Packaging:** Fiber is packaged in corrugated boxes with polyethylene liners. Custom packaging available upon request.

The above information is provided to describe typical values and does not constitute a product specification. MiniFIBERS warrants that for each Product sold, such Product will meet the standard specifications provided for that Product and will be of a quality consistent with the standard specifications. This is the sole warranty given with respect to the Product, and is given expressly in lieu of any other warranties, expressed or implied, including without limitation any implied or general warranty of merchantability or of fitness for a particular purpose. It is expressly understood that any technical advice or assistance that may be provided by MiniFIBERS is rendered without compensation, and MiniFIBERS assumes no obligation or liability for such advice or assistance given, or for results obtained.
